Dear Al:

On behalf of the Science and Technology Advisory Panel, I want to thank you for finding the time to join us for lunch on 7 December 1982. As always, your comments were insightful, interesting and valued by the members. We found your observations regarding MX development and the growing Soviet ICBM threat to be particularly noteworthy and astute.

The members and I deeply appreciate your continuing support of the panel and your active interest in our work. If we can be of any assistance to you, please do not hesitate to contact me.

Sincerely,
